

Remarks:

This amendment is submitted in an earnest effort to advance this case to issue without delay. The examiner has indicated that the case contains allowable subject matter.

The specification has been amended to eliminate some minor obvious errors. No new matter whatsoever has been added.

A clean copy of the drawing (amended to show the axis A) is also supplied, along with an Abstract in proper US form and a PTO-1449 listing one of the references in the original background, along with a copy of this reference.

Claims 3 and 6, which both depended from claim 1, have been found to contain allowable subject matter. Accordingly this amendment places in the case new claims 9 and 10 that respectively contain the features of claims 3 and 6 and that both contain the features of claim 1. Claims 1, 3, 6 have been canceled and claims dependent on them have been amended to depend from claims 9 and 10 as appropriate. In addition this amendment puts in a third new independent claim 11 having all the features of original claims 1, 6, and 8.

Thus all the claims in the case are allowable. Notice to that effect and passage to issue are in order.

If only minor problems that could be corrected by means of a telephone conference stand in the way of allowance of this case, the examiner is invited to call the undersigned to make the necessary corrections.
